

## Fairing Crash Protection Mushrooms

*These mushroom protectors offer protection against damage to fairings and other items that seem to get damaged or scratched even at very low speeds. **Highly Recommended.***

## NO CUT FAIRING PROTECTION MUSHROOMS

These mushrooms are designed to fit without cutting into the fairing. This is achieved by using a mounting bracket. They offer fantastic protection, and are convenient to fit as no drilling of the plastics is required and they can be removed and transferred to another FJR at a later date or re-sold if required.

Please be aware that a low speed drop, or just a drop for that matter, can cost in the region of £1000 to repair or even make the bike a 'write off'.

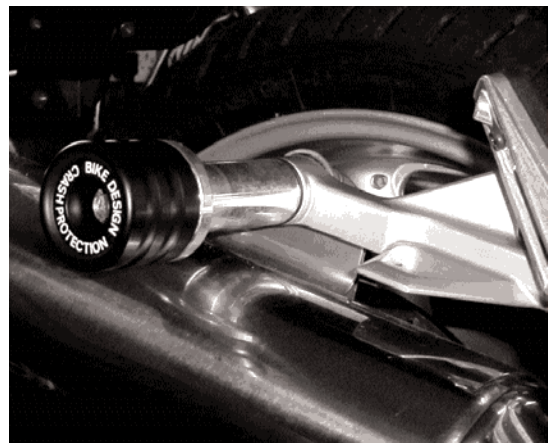

<b>NC-FPM</b>	No-cut Fairing Mushroom	<b>£172 (Pair)</b>
---------------	-------------------------	--------------------

## SILENCER PROTECTION MUSHROOMS (01-05 models)

These complete the full protection by mounting a pair of protection mushrooms on the rear footrest assembly. They will not only offer protection to both the rider and pillion's legs in the event of a fall but they protect the silencer, and as these cost over £400 each, are a worthy investment to any FJR. As the picture shows they're very easy to fit.

*(o/e Yamaha luggage will not fit at the same time as the mushrooms unless a chamfer is applied to the nylon mushroom. Givi luggage will rest on mushrooms but do fit. Mushrooms will not protect sidecases so it is easier to replace original bolts when using sidecases.)*

<b>NC-RPM</b>	Silencer Protection Mushroom	<b>£86(Pair)</b>
---------------	------------------------------	------------------

## SILENCER PROTECTION MUSHROOMS (2006> models)

The popular silencer protection mushrooms are available for the 2006-2009 model FJR1300. As these models have different footplates the mushrooms have extra brackets supplied in the box to allow fitment. Because of the more intricate design the price is dearer at £159.00 a set. **Still cheaper than £800.00 for one silencer though!** *O/E luggage will fit with these mushrooms.*

<b>NC-R06</b>	Silencer Protection Mushroom	<b>£159.00 (Pair)</b>	<b>2006-10 models only</b>
---------------	------------------------------	-----------------------	----------------------------

## R&G PROTECTION MUSHROOMS

These top quality R&G mushrooms are available to fit all models of FJR1300 including the 2006 to 2009 models. R & G supply many race teams worldwide and their product is second to none.

The fairing on 2001-05 models needs to be drilled to allow fitment of these mushrooms, but, because of the re-designed fairing **NO** drilling is required to the 2006> model.

*Please state if 2001-2005 or 2006> model mushrooms are required as there are two different types.*

<b>R-G MUS</b>	R&G Fairing Mushrooms	<b>£65.00 (pair)</b>
