

The FJR 1300 has a large one piece headlight unit than can easily be damaged by an errant stray stone being thrown up. The club sells the ultimate lightguards... Ventura. Don't think that cheaper makes will protect to the same degree.

## FJR1300 Ventura Light Guard

This quality one piece light guard has been developed for the need to protect the expensive FJR headlight unit from damage commonly caused by stones being thrown up from the road.

Ventura light-guards are manufactured from impact resistant space age Zykalon CS, can be fitted in seconds and look really great on the FJR.

**Available for all models**

<b>FJR-LG</b>	Ventura Light Guard	<b>£29</b>

## FJR LEGS SHIELDS

These leg shields are designed to finish off the FJR1300 lower fairing so as to give total protection to your lower legs and feet.

I had these fitted to my own FJR and was gobsmacked by the difference they made. My feet stayed dry and warm and my boots remained clean.

They are manufactured from vacuum formed black plastic (as per Fenda Extender) by a British manufacturer **exclusively for the FJ Owners Club.**

They come complete with well nuts and S/S screws to mount them to the OE fairing lowers. Fitment is a simple affair but the drilling of four small holes into the fairing each side is required.

<b>FJR-L-sheild</b>	Leg shield (black only) <b>(01 - 05 Models only)</b>	<b>£69</b>

### GENUINE YAMAHA LEG SHIELDS 2006-2009 models

These are original equipment leg shield fitments for the 2006-2009 model FJR1300 as supplied by Yamaha. They are colour matched to your bike and will protect your lower legs and feet from the cold and the wet.

**Please State exact colour of your bike when ordering. The colour code is also printed in a label underneath the riders seat. You will need to supply this as well**

<b>FJRLS 0609</b>	Leg Shields	<b>£175.00 per pair</b>
