

ALL FJR ORIGINAL EQUIPMENT PARTS ARE AVAILABLE FROM THE FJ OWNERS CLUB

**To order: Use the club website Parts Microfische, obtain the correct part number and place order in the usual way.**

**Parts will be charged at Yamaha's current retail price**

All Original Equipment parts for the Yamaha FJR1300 model range are available from the club but will, more than likely, not be held in stock and will have to be ordered from Yamaha. This process can take up to 7-14 days approximately. All parts are available at current Yamaha retail prices. O/E parts vary in price from reasonable (small bolts, washers etc.) to extortionate (exhaust silencers, fairing panels etc.).

The club supplies pattern parts for lots of items, that work just as well, and are of the same or better quality than O/E. If available they are listed in the catalogue. If you require a large part feel free to email me or ring for a 'guesstimate only' price. If you definitely want the part I can confirm the exact price before I order it via email. Please be aware it is very time consuming finding out prices for parts and then being told "Not to bother". Once ordered the part can only be cancelled or returned with a 10% handling levy. If you need the part and wont consider second hand then the price is irrelevant.

Small parts, that are not listed in the catalogue, can be obtained by looking up the relevant part number using the online microfiche pages found on the club website. Alternatively they can be obtained via your local dealer as I am unlikely to have them in stock.

Please make sure you get exactly the right part description and number before ordering as being one digit or letter 'out' can mean a totally different part being supplied! Again, if I order it for you and it is wrong because of your mistake, there is a 10% handling levy imposed to return it.

## Yamaha Liners

These Genuine Yamaha pannier Liner Bags are made in polyester have a shoulder strap and inner and outer pockets. Available in black only and sculpted to fit FJR1300 o/e side-cases. Also matching Yamaha Top-case liner.
