

## CRAMPBUSTER

This little gadget, has been a boon. It slips onto your throttle and allows you to use the palm of your hand to hold a constant throttle whilst you can stretch your fingers and allow any tingling to subside. It works a treat and is a cheap solution to an irritating problem. When you have completed your long haul simply slip it off your throttle. Does not impede normal throttle operation.

## The AUTOGLYM MOTORCYCLE VALET COLLECTION

The kit contains **Super Resin Polish** 325 ml, **Leather Cleaner** 500ml and **leather Cream** 325ml, **Instant Bike Shine** 450ml, **Visor Cleaner** 500ml, **Motorcycle Cleaner** 1 litre, **Protectant** 450ml, **Degreaser** 450 ml, a **sponge** and **8 pieces of perfect polishing cloth**.

## Tyre Pressure Check Valve Caps

Each valve has an indicator that lets you know if the tyre pressure has dropped below a safety level. Green is correct, Yellow indicates some pressure has been lost, Red signals the pressure needs immediate attention. Front and rear have different settings.

comes in a pack of two.

pressure is set by you and then the valve signifies when the pressure has dropped from your preset amount.

**PC-VAL** Pressure Check valve **£8.00** pair

## CLEAR PROTECTIVE FILM

As many owners know, the lacquer used on modern vehicles has to be ozone friendly. Therefore modern lacquer is not as tough as that used on older vehicles ie FJ1200. The FJR is no exception and is prone to scuffing especially on the side panels and tank. These clear sticky backed sheets of vinyl can be cut with scissors or a utility knife to any shape and used to protect your valuable paintwork. Size 10" x 18"

**C-PLAS** Clear sticky protective sheet **£6.00**
