

EBC REPLACEMENT BRAKE DISCS

These EBC brake discs are manufactured from Stainless Steel for good performance (using sintered pads) and at a substantial saving over the O/E disc prices.

EBC MD 2074 X	Front discs (pair)	2001-200	£290.00
EBC MD 2089 X	Front discs (pair)	2003>models	£290.00
EBC MD2011X	Rear disc complete (each)	All Models	£99.00

BRAKING

Stainless Steel Wavy Brake Discs

These stainless steel replacement discs by BRAKING are a superb alternative to the O/E type. Laser cut, from a high carbon content stainless steel, and precision ground to ISO standards, The front discs are the new Wavy design that increases braking area whilst keeping the pad surface swept clean for ultimate braking .Rear are NON wavy/

BRAF-FJR	Braking front disc (each)	£200.00
BRAR-FJR	Braking rear disc (each)	£100.00

STAINLESS STEEL BRAIDED HOSES

The stainless steel braided hoses replace the soft rubber hoses with corrosion free braided lines and stainless steel end fittings that not only improve the looks but also increase the feel and braking performance over the standard set-up. **New** for 2009 is a race type setup for the front brakes where the brake line splitter is omitted and is replaced by just two single lines to the front calipers. Lines come complete with all fittings, copper washers and Banjo bolts.

The hoses will fit all models of FJR 1300 except ABS models.

Braided Steel Hose kits (11 lines!) are available, if required, for all ABS models. These replace the rubber end fitting hoses with s/s lines. Please ring for prices.

S/S FB-FJR front brake (2 lines) £70.00

S/S RB-FJR rear brake £32.00
--

S/S C-FJR clutch hose £32.00
--

Yamaha recommend replacing o/e rubber hoses every 4 years.

ABS models have mainly metal hoses but the ends are rubber to allow flexibility for fitment
